LIST OF APPENDICES

I. INTRODUCTION

The internship program is a cornerstone of the bachelor's curriculum at the **Institute of Digital Technology (IDT), Cambodia Academy of Digital Technology (CADT)**. ...

1.1. Presentation of the Internship

...

1.1.1. Objective of Internship

...

1.1.2. Duration of Internship

...

1.2. Presentation of the Company

...

1.2.1. General Information of the Company

...

1.2.2. Service of the Company

...

1.2.3. Vision and Mission

...

1.2.4. Company Chart

...

1.2.5. Address and Contact

The company is located at:

- Address: [Somewhere on earth i think](#)
- Phone: [\(+855\) 12 345 678 / \(+60\) 32 303 198 1](#)
- Website: www.goon.edu.my
- Email: info@goon.edu.my

II. PRESENTATION OF THE PROJECT

...

2.1. Problematic

...

III. LITERATURE REVIEW

...

3.1. Existing Systems Analysis

...

3.2. Summary

...

IV. PROJECT ANALYSIS AND CONCEPTS

...

4.1. Requirements Specification

...

4.1.1. Functional Requirements

...

4.1.2. Non-Functional Requirements

...

4.2. Use Case Analysis

...

4.3. Process Flow and Activity Concepts

...

4.3.1. Core Workflow

...

V. DETAIL CONCEPT

...

5.1. Logical Architecture

...

5.1.1. System Overview

...

5.2. Physical Architecture

...

5.2.1. Deployment Overview

...

5.3. Data Model Design

...

5.4. Tools and Technology Requirements

...

5.4.1. Backend Technologies

...

5.4.2. Frontend Technologies

...

5.4.3. Development Tools

...

a. Visual Studio Code

b. Typst and Edist

Typst is used to author this internship report. Its code-based document model allows figures, tables, citations, and cross-references to be managed programmatically.¹ The tool’s logo (**Figure 1**) represents its identity as the typesetting system used for this report.

Edist is a dedicated editor for Typst. It renders a near-realtime preview of the compiled document as it is typed, with the preview scrolling to match the cursor position in the source.² This tight feedback loop removes the need to manually trigger recompilation or switch windows to check formatting, speeding up the writing of this report even further. The app’s logo (**Figure 2**) represents its identity as the live-preview editor used to write this report in Typst.

Figure 1: The Typst logo. Typst is a trademark of Typst GmbH and is used here for identification purposes only.

Figure 2: The Edist logo, used here for identification purposes only.

VI. IMPLEMENTATION

...

6.1. A

...

6.2. B

...

6.3. Development Environment Requirements

...

VII. CONCLUSION

This chapter reviews the outcome of the internship. It accounts for the functionality that was delivered in **Section 7.1** and the unfinished tasks in **Section 7.2**, reflects on the main technical challenges in **Section 7.3** and the professional experience gained in **Section 7.4**, offers a personal perspective in **Section 7.5**, and closes with the planned extensions in **Section 7.6**.

7.1. Completed Functions

...

Table 2: Completed features and how each was delivered on the backend and mobile sides, grouped by domain.

	Feature	Backend	Mobile	Status
1	...	...	...	...
	...	...	...	...
2	...	...	...	...
	...	...	...	...
	...	...	...	...

7.2. Incomplete Functions

...

7.3. Challenges

...

7.4. Experience

...

7.5. Perspective

...

7.6. Future Work
